Hydraulic Gear Pump
Model GP-CBN

Model GP-CBN is a HI/LO hydraulic gear pump with 12 displacement combinations with maximum pressures of 900 psi for the low pressure pump and 3000 psi for the high pressure pump. The change from LO to HI pressure is automatic with the LO pressure preset from 400 to 900 psi (preset at approx. 450 psi). The HI/LO pump is all cast iron. Applications for HI/LO pumps include log splitters, presses, etc. where rapid movement of the cylinder at low pressure is required prior to automatically switching to the high pressure mode to meet load requirements.

Recommended working conditions:
FILTRATION: 25 micron or better
OIL VISCOSITY: 7 - 700 cSt
OIL TEMP: -25° - 80° C (-12° - 175° F)
INLET PRESSURE: 12 - 32 psi absolute
AMBIENT -22° - 55° C (-8° - 130° F)
